Hurtado, S.C. Announces Kimberly A. Hurtado's Appointment to the Board of Governors of the American College of Construction Lawyers

Hurtado, S.C., Counselors at Law, is pleased to announce that Attorney Kimberly A. Hurtado was elected to the Board of Governors of the American College of Construction Lawyers at its Annual Meeting held in Key Biscayne, Florida on February 18-21, 2011, where she also presented a plenary session on AIA LEED Addendum and ConsensusDOCS Green Building Addendum Contract Negotiation. Ms. Hurtado was elected as a Fellow to the College in 2005.

The American College of Construction Lawyers was founded in 1990, recognizing exemplary lawyers having national and international expertise in construction law. The College is comprised of the top 1% of the construction bar in the United States, as well as lawyers and judges from Canada, Britain, and France. Fellowship is extended by invitation to those lawyers and judges who, after careful investigation, are found to have mastered the practice or teaching of construction law and dispute resolution in the highly complex technical and legal fields pertaining to the built environment, and whose professional careers have been marked by the highest standards of ethical conduct, professionalism, civility, and collegiality. The College's professional meetings, educational programs and publications bring together America's most outstanding construction law and industry experts to address the legal and technical implications of problems facing the design and construction of the built environment around the world.

Hurtado, S.C., Counselors at Law, is a Milwaukee law firm focusing its practice exclusively in the areas of construction, real estate and public finance law throughout Wisconsin, nationally and internationally. The firm is AV-Rated by Martindale Hubbell, listed with the Bond Buyer's Municipal Marketplace, and is a certified Women's Business Enterprise (WBE/EBE). Hurtado, S.C.'s construction and real property development advice includes strategic planning, life-cycle analysis, business development and dispute resolution services to individuals, public entities, and emerging and established businesses, with a special emphasis on sustainable, energy-efficient project development supported by the use of building information modeling (BIM). Ms. Hurtado recently authored Unit 3: BIM Contract Negotiation and Risk Allocation for the Associated General Contractors of America's Building Information Modeling Certification Program -- the first educational certification credentials available in the United States for implementing BIM in construction.
